EDUCATION

University of Colorado Denver **GPA: 3.90**

Bachelor's in Computer Science, Minor in Information Systems *Expected May 2027*

Relevant Coursework: Algorithms, Data Structures, Computer Networks, Fundamentals of Unix, Object-Oriented Programming, Discrete Structures, Database Management, System Strategy & Architecture, Cybersecurity Principles

EXPERIENCE

MBDMG **Remote**

Software Developer Intern *September 2026 - November 2026*

- Built a check-in kiosk for a martial arts studio in Next.js, React, TypeScript, and Tailwind, with class selection, name search, live capacity, privacy auto-clear, and idle timeout. Merged into the team's production repo after code review.
- Integrated the kiosk with an Odoo 20 backend through server-side REST API routes and a secure device-pairing flow.

CU Denver College of Engineering **Denver, CO**

Teaching Assistant *August 2025 - Present*

- Advised 16 project teams (80+ students) through semester-long engineering design projects, providing iterative and constructive feedback via Canvas - helped achieve an 88% average, one of the highest across all sections.
- Held 10+ hours of office hours and class sessions (4x/week), grading deliverables against course standards.

TRIO SSS & McNair Scholars **Denver, CO**

STEM Peer Mentor *December 2024 - Present*

- Mentored 165+ first-generation, low-income, and students with disabilities through academic planning, course selection, and college navigation as part of a competitive, federally funded student success program.
- Conducted 50+ one-on-one mentoring meetings per semester, tracking goals and documenting academic progress per federal program requirements to ensure mentees maintained scholarship eligibility and stayed on track.

PROJECTS

SnowPost | Next.js, MongoDB, Clerk, TypeScript, Tailwind | Live

- Developed a full-stack social media platform with a Next.js frontend, MongoDB database, and Clerk authentication, using modular React components and server actions to handle data fetching and form validation.

AI Article Summarizer | React, JavaScript, CSS, Gemini API, Chrome APIs | Live on Chrome Web Store

- Built and published a Chrome extension to the Chrome Web Store, reaching 280+ impressions and 200+ installs, that summarizes any webpage in brief, detailed, or bullet point modes via user-provided Google Gemini API keys.

Galaxy Generator | Three.js, WebGL, JavaScript, HTML, CSS | Live

- Built an interactive Three.js galaxy renderer, adding parameter controls for particle count, size, spiral arms, spin direction, color gradient, and randomness using lil-gui - deployed live on Vercel.

LEADERSHIP & COMMUNITY INVOLVEMENT

S-STEM Engineering Learning Community **Denver, CO**

Mentor Fall 2023 - Spring 2025

- Conducted recurring one-on-one mentorship meetings with first-year engineering students, providing academic guidance and support through CU Denver's federally funded S-STEM learning community.
- Presented a co-authored research poster at a national S-STEM conference in Chicago, connecting with S-STEM scholars, mentors, and faculty from universities and institutions across the country.

SKILLS

- **Languages:** TypeScript, JavaScript, Python, Java, C++, SQL, Bash, HTML, CSS
- **Frameworks & Libraries:** Next.js, React.js, Node.js, Tailwind
- **Developer Tools:** Git, GitHub, Docker, Linux/Unix, Vim, SSH, PostgreSQL, Vercel, Odoo, MongoDB, Android Studio, Jupyter, Tableau
